Literature affects our world in many ways, historically dating far back in human history. Before the written word, an assigned orator told stories and ancient cave drawing depicted narratives using figures and symbols. The stories and essays presented in this book represent my personal cave wall and my symbols and figures are letters forming words. Readers will create their own mental images. It's the beauty of the written word—writers create, readers clarify the creation. Enter the realm of a serial killer; share his thoughts, his emotions, his pain, and his need to assassinate. Walter, an ordinary factory worker, obsessing over the mistreatment of victims by the courts becomes a vigilante for justice. Appalled by adjudicators coddling criminals under the guise of civil rights, Walter factors himself in as a lethal consequence for depraved individuals walking out of court with a-slap-on-the-wrist as punishment for heinous crimes. He has no particular skill-sets qualifying him to fight crime. He relies on cunning, isolation, and his hunting and tracking skills to take down targets and bring about his form of justice. A kaleidoscope of dreams and apparitions thrusts Walter into a nightmarish world where the lines of good and evil are discernible. When applying justice he finds right and wrong interchangeable; body count is his only measure of success. FIELD & STREAM, America's largest outdoor sports magazine, celebrates the outdoor experience with great stories, compelling photography, and sound advice while honoring the traditions hunters and fishermen have passed down for generations. Orphaned and homeless in New York City at 14 years old in 2009, Carlo Juliano lived on the streets to survive until a local crime family boss, Johnny Toracio, gave him a job, his own place to live, and mentored him into a life as a gangster. For the next few years, Carlo flourished on the streets of New York befriending leaders of construction scams, art theft rings, drug cartels, biker gangs, extortion rackets, gambling, and cybercrime. In 2015, a series of events ignited a treacherous power struggle for control of New York City's underworld. "1701". In 1954, Ruth Vincent was a young teacher and Alaska was not yet a state when her biologist husband, Bob, decided to conduct research on rugged, isolated Afognak Island. As they left Oregon for the unknown, both Ruth and Bob eagerly anticipated their pioneer adventure. Hours later, the two stood on the remote island with nothing but a short-wave radio and bush pilots as their connections to the outside world. Dressed in heels, Ruth reveals how she was ushered into her tiny new home that had looked so tidy from the air, but in reality was filled with junk. While learning to live within primitive conditions, Ruth shares how, amid stunning Alaskan scenery and idyllic peacefulness, she faced Kodiak brown bears, confronted loneliness, and welcomed critters as pets. As months turned into years, Ruth made do by brushing her teeth in the river, enhancing her meals with puffin eggs, and looking forward to mail deliveries by bush pilots. Through it all, Ruth provides insight into the importance of having a positive attitude as she and Bob learned to trust each other and their faith to find creative solutions to all their challenges. In the Wake of the Frontier vividly portrays one couples three-year adventure on an Alaskan island during the 1950s as they unearthed valuable lessons and made incredible memories. of six rescued wolves. "Walking slowly to the den, dug out under a large boulder, I crawled in using my flashlight. There they were, six of them, staring at me. They did not seem frightened but whined a little. I picked each one up and looked them over one at a time and they seemed in pretty good shape, staring intently at me with their penetrating eyes. This was such an amazing experience. It's likely the bounty hunters poisoned their parents and siblings, and these were the survivors. I was their savior. I have never felt such instant bonding, overwhelmed with desire to make a life for these beautiful critters of the wilderness.
