Pagan Theology Nov 03 2020 In *Pagan Theology*, Michael York situates Paganism—one of the fastest-growing spiritual orientations in the West—as a world religion. He provides an introduction to, and expansion of, the concept of Paganism and provides an overview of Paganism's theological perspective and practice. He demonstrates it to be a viable and distinguishable spiritual perspective found around the world today in such forms as Chinese folk religion, Shinto, tribal religions, and neo-Paganism in the West. While adherents to many of these traditions do not use the word “pagan” to describe their beliefs or practices, York contends that there is an identifiable position possessing characteristics and understandings in common for which the label “pagan” is appropriate. After outlining these characteristics, he examines many of the world's major religions to explore religious behaviors in other religions which are not themselves pagan, but which have pagan elements. In the course of examining such behavior, York provides rich and lively descriptions of religions in action, including Buddhism and Hinduism. *Pagan Theology* claims Paganism’s place as a world religion, situating it as a religion, a behavior, and a theology.

Leadership for an Age of Higher Consciousness - Vol. 2 Oct 02 2020 In *Leadership for an Age of Higher Consciousness* B.T. Swami invites us to enter into the realm of empowered conscious leadership. He challenges us to go beneath the surface and recognize the authentic needs of those we lead. His insights set the bar high, demonstrating why leadership is essential, how to be an empowered leader, and the powerful legacy this creates, both in the world and within the hearts of those we lead. Please open your hearts to this treasure chest of wisdom. Let us raise ourselves and the world around us towards a higher level of consciousness, peace and compassion. His Holiness Radhanatha Swami Spiritual Guide, Author and Activist In this sequel to his internationally acclaimed *Leadership for an Age of Higher Consciousness: Administration from a Metaphysical Perspective*, His Holiness Bhakti Tirtha Swami explores the greatness of two famous leaders from the Vedic tradition of ancient India. Addressing the leader within each of us, B.T. Swami shows us that the greatest leaders see themselves as servants first, they place integrity and character before personal gain, and the know how to tap into the help that is available from both the earthly and spiritual realms. True servant leaders are

animated visionaries who cultivate divine power to transform diverse individuals with scattered goals into communities with a unified, sacred mission." Good leadership is not just a matter of making things happen; it is a matter of making essential things happen, making important and productive things happen, and helping people feel good about what is happening. Leaders need to have a vision, but they also need to know how to convince others that their vision can manifest, and how to empower them to participate in the mission of bringing the vision about. --Excerpt from *Leadership for an Age of Higher Consciousness*, Vol. 2

Soham Yoga Jul 31 2020 *Soham Yoga* Meditation Meditation is the process of centering our awareness in the principle of pure consciousness which is our essential being. In this way we will

never lose sight of our real identity. Normally we lose awareness of our true Self through consciousness of external objects. Since we are habituated-if not actually addicted-to objective consciousness, we can use that very condition to our advantage. Rather than disperse our consciousness through objects that draw us outward, away from the source of our being, we can take an object that will have the opposite effect, present it to the mind, and reverse our consciousness. Such an object must have three qualities: 1. It must be something whose nature it is to turn our awareness inward and draw it into the most subtle depths of our being, 2. It must be something that can continue to be perceived even in those most subtle areas of our awareness, 3. It must already be present in our inmost being awaiting our discovery of it. Therefore it must be an object that can both impel and draw us, accompanying our questing consciousness inward, not being transcended when the mind and senses are gone beyond, but revealing itself as the Self. That object is the mantra Soham. By sitting with closed eyes and letting the mind become easefully absorbed in experiencing the inner mental repetitions of Soham we thereby directly enter into the state of consciousness that is Soham, the state of consciousness that is both Brahman the Absolute and our Self.

Churning of the Heart Apr 08 2021 Churning of the Heart, Volume One is the first American edition of a work originally published in India 1999. The author, Swami Shivom Tirth, heads several ashrams, or religious communities, in India, and one in rural New York. This work, the first volume of a three-

volume set, describes Shivom's experiences as a young student of his guru, Swami Vishnu Tirth Maharaj. Sadhana Books will publish Volumes Two and Three in the Spring of 2002. Introduction to the Spiritual Life, is drawn from Shivom Tirth's first-year as a resident of the ashram of Vishnu Tirth in Central India. During this period, in 1960, Shivom acted as Vishnu Tirth's personal assistant, accompanying him on daily walks each morning. This book records the content of their conversations. The format is in large part question and answer, as two great minds, young and old, disciple and teacher, explore the universal lessons of Hindu wisdom. Common experiences such as social conflicts and simple everyday decisions become the source of profound insights about the nature of reality. Shivom brings to the work a humble but determined curiosity, which lends to the discussions a simplicity and clarity that make them accessible to readers outside the Hindu tradition. Churning of the Heart is of particular interest to readers seeking authoritative information about the yogic tradition known as Shaktipat.

Spiritual Warrior III Nov 22 2019 Has your day-to-day struggle become minute-by-minute? How do we cope with life in these trying times? And what can we do to ease the pain of a suffering society? These genuine issues, and many more, are addressed in Spiritual Warrior III: Solace for the Heart in Difficult Times. Bhakti Tirtha Swami, a devout spiritual warrior himself, provides critical insight into the powerful position of spiritual warriors in this new millennium. This imperative survival guide gives techniques and an in-depth philosophical understanding necessary to purposely help yourself and others throughout times of crisis. "Fear and love do not go together. Fear is constricting, self-centered and self-conscious, whereas love is expansive, selfless and directed towards service. To become

effective spiritual warriors, we must learn to cultivate genuine love, courage, and compassion and come to depend on our inner faculties rather than externals. This allows us to understand our own true nature more deeply, and to behave more like the children and servants of God that we are. Then, firmly established in a higher state of consciousness, we can serve others-and the world-from the deepest, most aware and loving aspect of ourselves during these challenging times." -Excerpt from *Spiritual Warrior III*

Sassanian Elite Cavalry AD 224–642 Dec 04 2020 The Sassanians ruled the last great imperial Empire of Persia before the Arab conquests of the 7th century. Rome's only equal in the classical world, the Sassanian Empire had an enormous impact on the development of architecture, mythology, arts, music, military tactics and technology. Within the Sassanian military, the cavalry was the most influential element, and Sassanian cavalry tactics were adopted by the Romans, Arabs, and Turks. Their cavalry systems of weaponry, battle tactics, Tamgas, Medallions, court customs, and costumes influenced Romano-Byzantine and medieval European culture, and this book allows the reader to see how a little-studied eastern power affected the development of cavalry traditions in the western world.

Reflections on Sacred Teachings V Sep 20 2019 "Some find it more peaceful to avoid interacting with others. However, we do not just want peace. We want realization, and the unfoldment of realization is not always a peaceful process. It is peaceful to be in ignorance; it is peaceful to be in denial; it is peaceful to avoid dealing with issues by living a cloistered lifestyle, but the real challenge arises when we have to interact with people because it tests our genuine level of realization."-- B.T. Swami "Sriila Bhaktisiddhanta Sarasvati Thakura founded his Gaudiya Matha on sixty-four principles that outline a perfect and complete foundation for a spiritual society...Bhakti Tirtha Maharaja has molded his life according to these sixty-four principles. Therefore, he is able to expertly guide the world towards the ultimate goal of life, not only by elaborating on them, but also by leading with his personal example."--
